Francesco Belacca

Senior SRE | Certified Azure Dev, Admin & DevOps Expert Cattolica, Italy | francesco.belacca@hotmail.it | https://www.linkedin.com/in/francesco-belacca-dev/ | https://github.com/macel94

SUMMARY

Senior Site Reliability Engineer with 10+ years of experience building, securing, and scaling Azure cloud infrastructure, .NET services, and delivery automation. Expertise spans CI/CD, Infrastructure as Code, cloud governance, reliability engineering, and distributed systems. Operates in a single-tenant environment supporting 85,000+ users across 500+ companies.

SKILLS

Azure, Azure DevOps, GitHub Actions, GitHub Enterprise, Bicep, Infrastructure as Code (IaC), CI/CD, PowerShell, .NET, C#, APIs, Microservices, Azure Kubernetes Service (AKS), Docker, Helm, Prometheus, Grafana, JMeter, Chaos Mesh, Azure Load Testing, Microsoft Entra ID, Azure Key Vault, Managed Identity, RBAC, DevSecOps, SQL, Elasticsearch, Blazor, Microsoft Dynamics 365, Microsoft Business Central, Microsoft Power Platform, Microsoft Fabric, Full-Stack Development, English, Stakeholder Management, Security Administration

EXPERIENCE

Senior Site Reliability Engineer | Würth IT Italy
Cattolica, Italy | September 2024 - Present

- Built and maintained complex, dynamic CI/CD in Azure DevOps and GitHub Enterprise for CRM/ERP and Business Central workloads.
- Wrote production PowerShell automation and .NET backend APIs or background services to remove manual toil and harden processes.
- Focus areas Azure | Azure DevOps | GitHub Enterprise | CI/CD | PowerShell | .NET | Bicep (IaC) | Dynamics 365 / Business Central / Power Platform | Microsoft Fabric | Entra ID | DevSecOps | Governance | Automation.

Presales Solutions Architect | Agic Cloud
Parma, Emilia Romagna, Italia | July 2023 - July 2024

- Designed Azure landing zones, application architectures, and migration plans for enterprise clients, focusing on scalability, security, and cost control.
- Led technical presales: shaped solutions, produced estimations, and supported bids for complex multi-service Azure projects.
- Drove DevOps adoption using Bicep, GitHub Actions/Azure DevOps YAML, and CI/CD patterns; standardized IaC and deployment practices across teams.

Backend Team Leader & Cloud Developer | Agic Cloud
Parma, Italy | February 2022 - July 2023

- Delivered end-to-end cloud-native and full-stack solutions for large enterprise customers, including Enel, in collaboration with Microsoft Consulting Services, covering frontend, backend, databases, and Infrastructure as Code.
- Built proof of concepts and technical demonstrations to showcase Azure capabilities, using modern technologies such as Bicep, Blazor, .NET, Azure DevOps, and GitHub Actions.
- Developed and deployed a custom three-tier containerized application on Azure Kubernetes Service using GitHub Actions, Bicep, Helm, Chaos Mesh, and Azure Load Testing, with Prometheus and Grafana for monitoring and observability.

Earlier Experience

- Backend Team Leader & Cloud Developer | Vetrya | Parma, Emilia-Romagna, Italy (Full Remote) | June 2021 - January 2022
- Backend Developer/ Analyst | Credemtel SpA | Reggio nell'Emilia, Emilia Romagna, Italia | April 2020 - May 2021
- Backend Developer | Credemtel SpA | Reggio Emilia, Italia | September 2019 - March 2020
- Consultant - Backend Developer | Amaris | Reggio Emilia, Italia | September 2018 - August 2019
- Junior Backend Developer | ericsoft srl | Misano Adriatico | May 2016 - August 2018
